easyE-i Starter-Kit

The easyE-i Starter-Kit (EEL-I-STARTER-KIT-01) is an easy and pleasant add-on for first-time buyers and customers who want to operate and program the easyE-i actuator in a simple way and be able to make adjustments with the free downloadable software (BAS).

Starter-Kit contains the following:

- 1 x i-Connect-Box incl. 1 m power cable w/one sided 2-pin Molex Minifit connector.
- 1 x Programming cable for easyE-i actuator w/USB connection for PC.
- 1 x Hard copy of easyE-i Starter-Kit and easyE-i installation- and wiring guide.
- 1 x easyE-i handset.

Free downloadable BAS software

Either scan the QR code or use the link to start download.

i-Connect-Box is delivered with 2 jumpers, but always place jumper(s) according to the below overview.

Note: For actuators with shielded cables, the shields at the end of the i-Connect box must be connected to the power supply and earth. Further details: i-Connect-Box/DIN Installation Guide:
